## Southside West Neighborhood

### REHABILITATION

The rehabilitation of owner-occupied homes began in September 2011 after months of inspecting, planning and designing a program to meet the needs of the Southside residents.

#### First Rehabilitation – 310 Enterprise Street

The first substantial rehabilitation located at 310 Enterprise Street is now complete with a very satisfied homeowner.

**Completed Rehabilitation  
Contractor with Homeowner**

#### Second Rehabilitation – 1208 Scout Drive

Housing rehabilitation activities continues as the second unit at 1208 Scout Drive is 90 percent complete. Exterior demolition during the rehab process allows for the correction of poor insulation, faulty wiring and structural damages prior to the installation of exterior cement fiber boards and exterior finishes.

**Before**

**Phase One: Lead Abatement**

**90% Complete**

### **Third Rehabilitation -120 Chestnut Street**

The housing rehabilitation activities are progressing at a desirable rate with the third unit in its final stage. This rehab activity sits up high on a hill which will have a positive appeal for the Southside Revitalization area. Improvements will include: lead paint abatement, new exterior hardi-plank siding, new windows, new roof and new interior walls with modern kitchen and bathroom fixtures.
